WORK EXPERIENCE

Founder & Lead Software Engineer Jan 2025 – Present
OneRepAI — Remote

- Architected and deployed a 24/7 AI digital team member platform automating lead qualification, customer support, and appointment bookings across WhatsApp, Instagram, and web chat.
- Built dynamic knowledge ingestion pipeline (PDF, DOCX, URL scraping) with hallucination guardrails to deliver accurate, brand-aligned multi-turn responses.
- Implemented sub-second real-time conversational streaming and voice interactions using Twilio Voice API and WebSocket duplex channels.

Software Engineer Aug 2024 – Apr 2025
Sleeky Programmers Limited — Remote

- Developed scalable backend microservices and RESTful API endpoints utilizing NestJS, TypeScript, Node.js, and PostgreSQL in Dockerized environments.
- Integrated third-party payment, webhook, and auth services; actively reviewed 50+ PRs to enforce code quality, type safety, and test coverage.

Software Engineer Jan 2024 – Dec 2024
iDeyFind — Remote

- Collaborated in cross-functional agile sprints to build and maintain internal enterprise applications from prototype to production.
- Authored comprehensive API documentation and optimized database queries, reducing onboarding time for new engineering hires.

Software Engineering Instructor & Mentor Sep 2024 – Dec 2024
Goldtech ICT Hub LTD — Lagos, Nigeria

- Conducted rigorous hands-on training sessions for 50+ students in React, Next.js, TypeScript, and modern API integration workflows.
