OLATUNBOSUN OLASHUBOMI

FULL-STACK & AI SYSTEMS ENGINEER • STARTUP FOUNDER

Lagos, Nigeria (Worldwide Remote) | pshubomi@gmail.com | +234 916 196 5510 | Portfolio | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full-Stack & AI Systems Engineer with founder-grade execution and 3+ years of experience architecting high-performance web applications, resilient backend microservices, and autonomous AI agents. As the founder behind OneRepAI and builder across 20+ shipped production platforms, I combine commercial product discovery with deep backend rigor—building software that eliminates operational friction, drives user retention, and delivers measurable commercial impact. Available immediately for high-impact Contract & Remote roles.

TECHNICAL SKILLS

Languages & Core: TypeScript, JavaScript (ES6+), Python, HTML5, CSS3, SQL

Frontend & Mobile: React.js, Next.js (App Router), React Native, Tailwind CSS, Expo, NativeWind, Zustand, Redux

Backend & APIs: Node.js, Express.js, NestJS, RESTful APIs, WebSockets, Microservices Architecture, JWT / RBAC

AI & Integrations: OpenAI & Claude LLM APIs, Twilio Voice API, Paystack & Stripe Gateways, Google Calendar API, RAG

Databases & DevOps: PostgreSQL, MongoDB, Redis, Docker, Git & GitHub, AWS, Firebase, CI/CD, Postman, Linux

PROFESSIONAL WORK EXPERIENCE

Founder & Lead Software Engineer
Jan 2025 – Present

OneRepAI — Remote

- Architected and launched an omnichannel 24/7 AI digital team member platform automating lead qualification, customer support, and appointment scheduling across WhatsApp, Instagram, and web chat.
- Engineered a dynamic RAG knowledge ingestion pipeline (PDFs, docs, URL crawling) with behavioral guardrails to eliminate hallucinations and maintain brand alignment.
- Implemented sub-second real-time conversational streaming and voice interaction pipelines utilizing Twilio Voice API and duplex WebSocket channels.
- Built a unified multi-channel shared inbox and two-way Google Calendar synchronization using Next.js, Node.js, and MongoDB.

Software Engineer
Aug 2024 – Apr 2025

Sleeky Programmers Limited — Remote

- Designed and deployed scalable backend microservices and RESTful API endpoints utilizing NestJS, TypeScript, Node.js, and PostgreSQL in Dockerized environments.
- Optimized database queries and implemented caching strategies, reducing API response latency by 35%.
- Integrated third-party payment gateways, authentication flows, and webhook event consumers with resilient error-handling.
- Actively reviewed 50+ pull requests, enforcing type safety, coding standards, and architectural consistency across the engineering team.

Software Engineer
Jan 2024 – Dec 2024

iDeyFind — Remote

- Collaborated in agile cross-functional teams to build and maintain internal enterprise applications from prototype to production.
- Authored comprehensive API documentation and internal technical guides, streamlining onboarding and knowledge transfer.
- Maintained CI/CD pipelines and feature branching workflows in Git to guarantee clean, zero-downtime releases.

TOP 5 FLAGSHIP PRODUCTION PROJECTS

1. OneRepAI • Autonomous Voice & Chat AI Platform — onerepai.com

24/7 AI digital team member & omnichannel inbox automating customer support, lead qualification, and appointment booking. Features real-time voice streaming via Twilio, dynamic knowledge base ingestion (PDF/web), and Google Calendar synchronization.

Tech Stack: Next.js • TypeScript • Node.js • Twilio Voice • OpenAI • WebSockets • MongoDB

2. Urban Grill Lounge • Hospitality & VIP Table Booking Engine — urban-grill-lounge.vercel.app

Full-stack restaurant and cocktail lounge platform featuring an interactive digital menu, real-time VIP table reservation workflows, and event booking management with sub-second page transitions.

Tech Stack: Next.js 14 • TypeScript • Tailwind CSS • Responsive UI/UX • Vercel

3. Intertex NG Shop • Fashion E-Commerce & Paystack Fintech — intertexng.shop

Modern apparel e-commerce store with persistent cart state, webhook-verified Paystack payment gateway integration, order tracking, and high-conversion catalog filtering.

Tech Stack: Next.js • React • Paystack API • REST APIs • Tailwind CSS • State Management

4. Ajani Smart Guide • Real-Time Regional AI Advisory Engine — ajani.ai

AI-driven regional intelligence engine delivering multi-turn recommendations on local services, hospitality, and real-time commodity prices with streaming WebSocket responses.

Tech Stack: Node.js • Express • LLM APIs • WebSockets • MongoDB • Streaming APIs

5. Whatechnology • Enterprise Digital Consultancy Platform — whatechnology.com

Corporate digital consultancy platform showcasing cloud architecture, software engineering, DevOps security, and IT enterprise solutions with optimized SEO architecture.

Tech Stack: Next.js • TypeScript • Enterprise SEO • Tailwind CSS • Vercel

LEADERSHIP, MENTORSHIP & TEACHING

Software Engineering Instructor & Mentor — Sep 2024 – Dec 2024

Goldtech ICT Hub LTD — Lagos, Nigeria

- Conducted rigorous hands-on training sessions for 50+ students in React, Next.js, TypeScript, and modern API integration workflows.
- Mentored developers-in-training through real-world project builds, instilling clean code principles, Git workflows, and documentation clarity.

Frontend Web Developer & Mentor — Oct 2023 – Apr 2024

Babtech Computers — Lagos, Nigeria

- Led the development of responsive web applications, improving user engagement by 20% through modern CSS architecture and accessible components.
- Guided junior developers on best practices in React state management and component reusability.
